

Онлайн Приложение

Часть А. Выборка на основе стран, в которых топливная рента составляет не менее 10% ВВП

Таблица 1А. Результаты, показывающие связь присутствия иностранных компаний на рынке нефтедобычи и риска завершения вооруженного конфликта, инициированного нефтедобывающей страной, оцененные с помощью модели пропорционального риска Кокса с изменяющейся во времени переменной

	coef	exp(coef)	se(coef)	lower 95%	upper 95%	z	p-value

Таблица 8С. Результаты, показывающие связь присутствия иностранных компаний на рынке нефтедобычи и взаимосвязи топливной ренты и эскалации вооруженных конфликтов, инициированных против нефтедобывающих стран, оцененные с помощью моделей обобщенной регрессии Пуассона с нулевым завышением и фиксированными эффектами
